I'm giving this a yes, because I'd give it a 6/10. It's kind of funny, but I didn't expect to finish it in 20 minutes. Honestly, I would just kind of suggest that you play it when you don't have to pay for it.. Took 40 minutes ti finish paid 49 pence. Worth it? Yes I think so, decent story good voice actors and delivered what it promised. An ausiobook adventure game you can literally play with your eyes shut. Shame about the longevity, will need to idle for the last trading card. A cheeky acheivement or two would have been nice. There is only one story and as far as I know one end (or I got it right first time). For people with visual impairments such as myself this is a good example of what can be done, just needs more meat on the bones.. Grail to the Thief is a text (and audio)-based game in which you make decisions to progress through the story. Kinda like the old Choose-Your-Own-Adventure [en.wikipedia.org] books of the nineties. These types of games always intrigue me as I like being able to choose the plot of my own story. While I love that part of it, in addition to the humor this game brings, I'm not necessarily a fan of the fact that there's one ending, no mater what you choose, really (if I'm wrong, let me know, but that's the way it seemed to be). In addition, while the voices for the characters are great, the narrator's voice was very annoying at times. Also, the game is extremely short (30 to 45 minutes at the most). Overall, it gets a thumbs-up for me because of the price I bought it at (
